MEMORANDUM FOR: Deputy Director of Security (PTOS)

SUBJECT : Services Provided Other Agencies

REFERENCE : DD/S Memorandum 69-0386 dtd 24 January
1969, Subject as above

1. In reply to referenced memorandum, this is to advise that although the Physical Security Division has no regular on-going programs that provide assistance to other Government agencies there have been many instances of assistance on an individual basis provided in the past to a variety of Government departments and agencies. To give you a flavor of the type of assistance, we offer the following:

White House Support

We recently provided support to the White House in the movement and temporary storage of sensitive material that President Johnson is installing in the Johnson Library in Austin, Texas. Physical Security Division personnel proceeded to Austin and levied requirements for the construction of the secure area in the Federal Office Building in Austin. Other Division personnel inspected, reconditioned, and set combinations on approximately 53 safes that this material would be stored in. This Division also participated in the actual loading of the trucks that transported the material to Texas.

~~SECRET~~

There have been many other instances of support furnished the White House in the past, particularly to the Presidents Advisory Group on Science and Technology. We have furnished safes, set combinations, and provided security advice and guidance on procedures.

Department of State

25X1A

25X1A

25X1A

Provided training, instructions, and practical demonstrations

ARFCOS

25X1A

Congressional Support

In the past we have provided various Congressional Committees with safes and also supported them in burning their classified trash on occasion. This type of activity would be done through the Legislative Council Office and upon request.

FBI, Secret Service, and Other Government Law Enforcement Agencies

Provide information on "crank" and nuisance telephone calls that this Division receives.

2. These are simply a few items that have occurred in the past few years but as you can see no routine long-term support of other Government agencies is involved.
